

DBMS

The diagram illustrates a data flow process. At the top, a light gray box labeled 'DBMS' has four green arrows pointing down to a dark gray box labeled 'logical addr.'. Below this, a white box contains the text 'write out-of-place' in green, with four green arrows pointing down to a final dark gray box labeled 'physical addr.'. The entire sequence is part of a larger system labeled 'Commodity SSD' at the bottom.

write out-of-place
to anywhere 🔒

logical addr.

write out-of-place
